INDUSTRIAL ENGINEER

MANUFACTURING PROCESS IMPROVEMENT SPECIALIST

PROFESSIONAL EXPERIENCE

MAX International Engineering Group, Old Tappan, NJ (Sept 2008 – Dec 2011)

Project Manager (Sept 2010 – Dec 2011)

Overall responsibility for process improvement projects from early planning phases throughout successful implementation

- Successfully lead throughput increase projects for three manufacturing departments.
- Successfully lead an MES (Manufacturing Execution System) evaluation and selection project.
- Developed full-scale project plans and associated communications documents.
- Tracked and assured the achievement of project milestones and deliverables.
- Maintained ongoing communication with stakeholders.
- Set and continually managed project expectations with team members and management.
- Performed various Operations Consultant duties.

Operations Consultant (Sep. 2008 – Sept 2010)

Led manufacturing excellence, cycle time reduction, throughput increase and cost reduction projects in various semiconductors manufacturing environments.

- Introduced and developed productivity improvement projects for cycle time reduction, cost reduction and throughput increase.
- Achieved 25%-60% throughput increase in various projects worked.
- Identified and facilitated process, workflow, work methods and layout changes to enhance productivity and improve efficiency.
- Planned and implemented KPIs, measurement reports and metrics.
- Led process automation projects.
- Designed and implemented dispatch system.
- Identified and improved resource efficiency in bottleneck and non-bottleneck areas.
- Analyzed and measured overall factory efficiency (OEE & HRE).
- Reviewed manpower and machine capacity in order to make recommendations for a well-balanced and synchronized production.
- Conducted speed models on various production processes and tools to improve productivity and to establish standard manufacturing rates for resource planning.

Jerusalem Municipality, Jerusalem, Israel (June 2002 – Dec 2007)

Assistant City Manager (Dec 2006 – Dec 2007)

Managed, led and promoted a wide range of high budget projects in the Governmental/Municipal field

- Managed major municipal issues.
- Effectively analyzed unresolved municipal issues while originating professional reports and providing efficient solutions recommendations.
- Responsible for all public inquiries of the City Manager.
- Represented the City Manager at municipal venues and committees assuring that the best city interests are kept.
- Planned and facilitated ministers and VIP visits.

Industrial Engineer (June 2005-Dec 2006)

Initiated and completed work efficiency improvement and cost reduction projects

- Planned, analyzed, evaluated and implemented work methods.
 - Planned and implemented measurement systems and reports.
 - Conducted work load tests and time studies in various municipal units.
 - Conducted financial reporting, forecasting and budgeting projects.
 - Hired and managed sub-contractors on high budget projects.
-

EDUCATION AND TRAINING

B.S. Industrial Engineering (2007)

Jerusalem College of Engineering (JCE), Jerusalem, Israel

Six Sigma Certified – Green Belt Certification (2008)

Lean Manufacturing – Yellow Belt Certification (2011)

CITIZENSHIP / LEGAL WORK STATUS

Dual citizenship - U.S. & Israel
